		Environmental Policy	
Date: 27 Jan 2025	Page 1 of 1	Doc. No AD-BF-105	Rev. No 1.0

At Alpha Data Parallel Systems, we are committed to minimizing our impact on the environment and promoting sustainable practices. We recognize that our operations have an impact on the environment and we are committed to reducing this impact by implementing the following policies:

- **Compliance with Environmental Laws and Regulations:** We will comply with all relevant environmental laws and regulations. We will also regularly review and assess our environmental policies and procedures to ensure compliance with changing laws and regulations.
- **Reduction of Energy Consumption:** We will strive to minimize our energy consumption by using energy-efficient equipment and implementing energy-saving measures in our operations.
- **Reduction of Waste Generation:** We will minimize our waste generation by implementing waste reduction measures such as reuse, recycling, and composting. We will also dispose of hazardous waste in accordance with all applicable laws and regulations.
- **Sustainable Procurement:** We will prioritize the procurement of environmentally sustainable products and services wherever possible. We will also work with our suppliers to promote sustainable practices in the production and transportation of their products.
- **Employee Engagement:** We will engage our employees in our environmental policy by providing training and resources to promote sustainable practices in their daily activities.
- **Continuous Improvement:** We will continually review and improve our environmental policies and practices to ensure that we are meeting our environmental goals.

By implementing these policies, we hope to promote sustainability and minimize our impact on the environment. We recognize that environmental stewardship is a shared responsibility and we are committed to working with our stakeholders to achieve our environmental goals.

Signed:

Managing Director
