
Summary

The **XRM-RS485** is an I/O Module which provides a Front Panel RS485 Interface. Enables the FPGA board to communicate with external devices through the RS485 protocol.

Features
Front Connector I/O:

Multiple RS485 Interface

Specification

Product Name	XRM-RS485
Front I/O	RS485 Data Port: - Multiple RS485 Interface provides simple RS485 functionality 19 differential pair I/Os
Software	None required.
Battery	The XRM provides holders for a back-up battery. Uses SR60 or equivalent batteries.
Environmental	Temperature: Operating Temperature 0° to +55°C EMC: FCC 47CFR Part 2 EN55022 Equipment Class B

Ordering Codes

XRM-RS485
