

AD01183

Prime Application

19x RS485 Interfaces

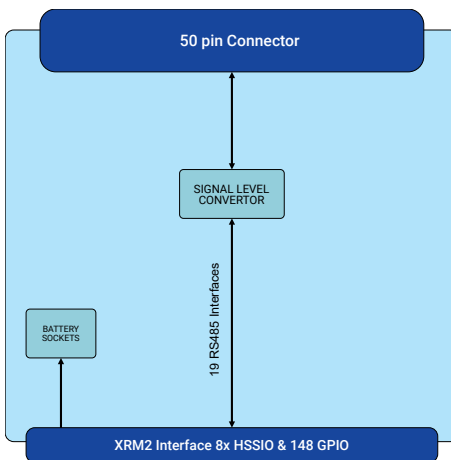

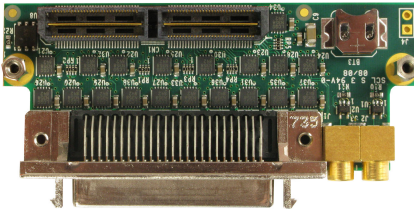

Board Features

- 50-pin AMP Connector

Summary

The **XRM2-RS485** is an XRM2 I/O Module which provides a Front Panel RS485 Interface.

Enables the FPGA board to communicate with external devices through the RS485 protocol.

Deliverables

XRM2-RS485 Board
One Year Warranty
One Year Technical Support

Board Format

Alpha Data XRM2 I/O Module

Input/Output Interfaces

RS485 Data Port
Multiple RS485 Interface

Environmental Specification

Cooling Option	Operating Temperatures		Storage Temperatures	
	Min	Max	Min	Max
AC0	0°C	+55°C	-40°C	+85°C

Operating Humidity

Up to 95% (non-condensing)

EMC Standards

FCC 47CFR Part 2
EN55022:2010 Equipment ClassB

Ordering Information

Order Code: XRM2-RS485(V)

Option	Code	Description of Options
I/O Voltage Levels	V	blank=3V3 I/O, /5=5V I/O
